Smaller classes make grade

Patal has been a registered private vocational school since 1986.

Patal is a small school that can quickly meet the needs of the community without the bureaucracy of large institutions.

Patal is truly one of a kind because of our ability to provide a supportive environment where social skills and discipline of a work day are emphasized and yet provide the flexibility to meet students' learning needs.

Patal adopts flexible learning strategies in the classroom to accommodate students who may suffer test anxiety or personal problems that maybe interfering with learning and therefore their performance.

Patal's philosophy is to respect the individual's cul-

tural choices in a positive atmosphere.

Patal offers courses in technology, business and Aboriginal Youth Pre-Employment program. See our ad for course offerings.
